

A trusted iXBRL solution to streamline and simplify your

SEC

filing process

IRIS CARBON® offers expert conversion and filing services to individuals, publicly traded companies, mutual funds, and other parties that qualify to file iXBRL reports with the Securities and Exchange Commission. We are a globally trusted iXBRL solution provider- with deep XBRL experience – over 9 years with the US SEC and 14 years globally, available 24x7 to help companies and individuals meet their SEC reporting requirements.

Our cloud-based, collaborative platform allows multi-user access to create, manage, edit, and file EDGAR iXBRL documents with the SEC. IRIS CARBON eliminates the need to manually hand-mark EDGAR changes and the subsequent wait to return a proof for your provider.

Most importantly, clients have the choice to customize IRIS CARBON and only pay for what they need, with no extra or hidden costs involved. Our iXBRL professionals remain available 24/7 for full-service iXBRL conversion, editorial service, and support.

What sets us apart?

Global leadership in compliance for the last 15+ years.

- An experienced team of 350+ XBRL professionals.
- Proven track record across 35 countries, 20+ regulators and +5 Mn filings.
- Rich experience across mandates:
 - US - SEC and FERC reporting
 - UK - HMRC iXBRL reporting
 - Europe - ESMA iXBRL reporting
 - Ireland - Revenue iXBRL reporting
 - Italy - Infocamere XBRL reporting
 - Singapore - ACRA XBRL reporting
 - South Africa - CIPC iXBRL reporting
 - India - MCA XBRL reporting
- Consistent top-rankings in independent quality evaluations.

IRIS CARBON® for SEC Mandate

How IRIS CARBON® can help

A CLOUD-BASED SOLUTION

Cloud-computing infrastructure hosted on Microsoft Azure with datacenters in the US.

SEC READY

One platform for iXBRL/XBRL creation, tagging, review, and audit.

COPY FROM MS EXCEL OR KEY-IN

- Generate a CSV file in a predefined format and upload it to auto-populate and auto-tag the form.
- Copy and paste from a MS Excel file.
- Or Key-in the data into the prescribed form format.

VALIDATE AND RENDER

Run all the checks to validate the file for XBRL standard, compliance checks, and embedded business rules.

FILING CALENDAR

Keep control over all your e-form submissions and be notified in time to complete the compliance process.

SOC AUDITED AND XII CERTIFIED

Secure and accurate.

FLAT ATTRACTIVE PRICING

Reasonable with no hidden costs.

LAST-MINUTE EDITS AND REVIEW

Till your report is perfect for submission

INTEGRATED DISCLOSURE MANAGEMENT

Optional and flexible.

TOP-NOTCH QUALITY AND SERVICE

Perfect and precise.

Fully Flexible Options, Choose What Suits Your Needs

► In-house XBRL Creation

Create, Review and Audit on the Platform

This option is ideal if you want to do your own XBRL tagging and establish your own report preparation process.

Our experts will train users through hands on on-line training sessions delivered through custom workshops.

Additional Services:

On-demand support for any assistance in preparation or in formatting the raw data or the final output.

► Outsourced XBRL Creation

*Review and Audit on the Platform,
Creation outsourced*

Once you provide the raw data, our XBRL team will focus on converting the data into XBRL format.

You will be able to monitor the progress of your report and step in for the review and audit process as and when required.

Additional Services:

Customized training and unlimited support available for any queries.
